

Interconnections special designed for vehicle applications

Dimensions

Caratteristiche tecniche/Technical specifications	
Tensione in uscita/Voltage output	4.75 ÷ 5.25V
Corrente in uscita/Current output	max 40mA
Tensione in ingresso/Voltage input	max 20V
Potenza massima/Max power	0.75W
Datasheet National Semiconductor LM78L05ACZ	

N.B. I valori massimi non possono essere applicati contemporaneamente
N.B. The maximum values can not be applied at the same time

ELEN S.r.l. - Elettronica industriale
